Dear Ed,

We've had more time to reflect on what you had done for Gloria and me by representing us. You took on a case that was so far from home where most would have walked away. You had put so much work and effort and talent, as well as your support staff into building a winnable case against such a strong opponent. Then you entered the lion's den and had to go toe to toe with the judge. You presented our case in the best strategic way possible with all the photos and blowups and expert testimony made available to get the judge to believe and understand the injury involved, it must have been a beautiful display of a lawyer at his best. We are very proud of you.

You took such an interest in us and that showed admirably. You saw a wrong and was successful at making it right. You truly are our hero!

Its not often that a stranger comes into your life and in the end becomes a true friend that really cares. We cannot put forth enough words to express our heartfelt, **Thank you**.

May your life be forever richer knowing you helped a "small guy" and may lifes rewards be abundant, You certainly deserve it.

Forever Friendship,  
Sincerely,  
Bruce and Gloria Frantzen
